

## Axx Missions Update - March 2022

I cannot help but start with another testimony from one of our French Pastors. I hope it inspires and encourages you as much as it does me!

**Ps Leroy Fender, Haiti** – (*Fr Translated*) What caught my attention, especially in these classes is that we are called to plant churches not to enrich ourselves not to be famous or to make a name for ourselves but to add new souls among the saved. I appreciated the notions of leadership (A leader is someone who makes other leaders), the essential characteristics... Many thanks! Certification of Pastoral Ministry – February 8, 2022.

French – over 750 [French Testimonials](#)

### Looking Forward - Kinshasa in DR Congo, August 2022

We are looking forward to the long-awaited doors opening. For two years now we have been planning to go the Kinshasa in DR Congo to launch our French program. Dr John Symons and I have been invited to minister at a pastor's conference with 7,000 French-speaking pastors and leaders in attendance. This is the perfect place to launch the *Certification Avancée du Ministère Pastoral* in the first week of August 2022. John and I are prayed up, vaxed up and ready to go.

### Our 2022 Faith Goal – 10,000 Training Requests

At the end of last year, I could not get away from the sense that God was asking us to believe for 10,000 training requests in 2022. This would more than double our 4,800 training requests for 2021. Needless to say, this was a stretch for the whole team but God willing and working hard we will get there. So far in the first 3 months of 2022, we have had 2163 training requests from 104 countries with an amazing 1,085 in March alone, 714 English-language requests and 371 French-language requests.

We have improved our admissions process and believe that word of mouth about the programs is starting to create kingdom momentum.

### Progress Update: A Light on a Thousand Hills – French Stage 2

Thank you so much for supporting Axx in funding the development of stage 2 of our French language program, *Certification Avancée du Ministère Pastoral*.

To successfully implement Stage 2, Axx is completing the following tasks:

- The final edit of video lectures - Completed
- Build associated learning management system courses - Completed
- Develop additional learning resources in French - In development.
- Develop advanced certification level examination elements – In development.
- Build associated bilingual web pages (French & English) – In development.
- Build associated student information including introduction, welcome and progress communications (French & English) – In development.

- Build graduation, reviews and testimonial bilingual pages (French & English) – In development.
- Build associated targeted marketing materials in French for Google and Facebook marketing platforms – To be developed.
- Launch *Certification Avancée du Ministère Pastoral* – August 2022.

There is a huge amount of work involved but we are tracking well and with your support will be ready for the August 2022 launch in Dr Congo, Kinshasa.

Please find below some messages of thanks from our Pastors

PS. Some exciting news!

You may have noticed that Axx recently launched a new website [Axx.edu.au](http://Axx.edu.au) This is part of our 2022 strategy to rebuild the [Axx.global](http://Axx.global) site exclusively for our free missional training programs. This is a significant undertaking that will allow us to grow the missional programs to accommodate 10,000 training requests per year.

Thank you so much for your prayers and financial support.

Dr Brendan Roach
